To support raw hourly rates, please provide a current Payroll Register for the staff proposed. This should be provided to the District or Prime requesting the information. If you do not have a Payroll Register, here are a couple of other options (if a payroll register is not maintained) to provide support of an hourly rate:

- A formal Agreement with the Company that states a dollar amount for periodic draws. A tracking of the work hours (not just billable hours) would need to be provided with this Agreement along with a report of the detailed transactions recorded in the equity (draw) account reported in the General Ledger. Or,

- Some other proof of consistent and periodic draws that would represent salary. The support could come from detailed transactions recorded in the equity (draw) account reported in the General Ledger. Also, a tracking of work hours would need to be provided with this information.

- If you are unable to provide one of the above options, contact the Central Office Procurement.

These options are an effort to determine a salary for the individual in order to calculate a "fair, reasonable, and competitive" hourly rate. Salary is defined as a fixed compensation periodically paid to a person for regular work or services. Or more specifically, a fixed regular payment, typically paid on a monthly or biweekly basis but often expressed as an annual sum, made by an employer to an employee. Salary represents an obligation from the Company and can be used to support an hourly rate for the "cost analysis" process.
